

LIFT

SUPERLIFT SLK25

SLK: Vigorous Material lift for Craftsman

The Wienold Superlift with counterbalance weights is optimal in order to bring loads e.g. directly to walls, or on high lying porches. Therefore we arranged the outriggers and counterbalance weights in the back and the lifting attachments in front of the lift.

The Superlift is an ideal aid handling heavy loads especially to handle window panes, heating and ventilation. The SLK is available in five pay loads of 300 – 450kg. Scope of supply: four large swivel casters, 1-gear winch, counterbalance weight box with 8 x 16kg weights.

300kg

Counterbalance hoist with counterbalance weights

- Heavy load steel platform
- Swivel casters
- Flexible lightweight hoist
- Dismantles to fit inside a van
- Removable counterweights for ease of transport
- Can be fitted with a glass vacuum lifter or winch

SLK 25

Capacity	300kg
Hock Height	7..9m
Width	800mm
Length	2200mm
Weight deadweight – lift only	204kg
inc counterweights	332kg

Technical Data

Height – stowed	2.04m
Length – stowed	1.02m
– Working position	2.22m
Width – stowed	0.80m
– Working position	2.20m
Ground clearance – working position	0.08m
Loading height min	0.27m
Pay load	300kg
Weight basic chassis	204kg
Weight complete (+8 counter weights)	332kg
